PROFILE

Enthusiastic Computer Science student with a strong passion for problem-solving and continuous learning. Eager to gain practical experience by contributing to technology-driven projects in a dynamic environment.

EDUCATION

B.Tech in Computer Science Engineering Specializing in Big Data Analytics, Chennai, India
SRM Institute of Science & Technology

12th Grade Chennai, India
St.josephs mat hr sec school

SKILLS

Technical Skills

HTML, Python, SQL

Tools

Excel

Soft Skills

Problem-Solving, Communication, Time Management,
Teamwork, Interpersonal Skills

PROJECTS

Hospital Management

- Developed a nurse-oriented interface to manage and navigate data related to medicines, doctors, and room availability
- Built the frontend using HTML and implemented the backend with Java and SQLite for efficient data handling
- Integrated key features including patient status, room availability, doctor shifts, medicine stock, and blood bank details

Bus Ticket Management System

- Developed a Python-based desktop application to streamline bus ticket booking and management
- Designed an intuitive GUI enabling users to view routes, check seat availability, and make advance reservations with climate-based suggestions
- Implemented basic admin features for managing schedules and routes efficiently

VOLUNTEERING

ADW Thirumangalam Government School Chennai, India

- Contributed to enhancing educational access through smart learning methods
- Encouraged critical thinking by guiding students to explore concepts through “why”-based questioning

CERTIFICATION

Introduction to Artificial Intelligence

COURSERA, IBM
